

Chirality, edited by Drs. Nina Berova and John Caldwell and published by Wiley, is calling for submissions for a 2015 double special issue with papers from Symposium on Molecular Chirality 2014 and Molecular Chirality Asia 2014. **The submission due date for this special issue is December 31, 2014.** Please indicate by the submission that the manuscript is aimed for this double special issue “**MC and MC ASIA 2014**” and if possible suggest 3-4 names of potential referees experts in the field and their current contact address.

The main aim of *Chirality* is to publish scientific work on the role of molecular asymmetry in both biologically active and non-biologically active molecules in respect to their pharmacological, biological, and chemical properties. The journal accepts reviews, original articles and short communications.

Effective with the 2014 volume, this journal will be published in an online-only format though print on demand is available for individual issues. Some of the major advantages to publishing in *Chirality* include:

- Quick publication online and assignment of a DOI in our Early View publication portal.
- A convenient and easy to use template is available for article submission through our manuscript submission website at <http://mc.manuscriptcentral.com/chir>.
- Availability of the Smart Article which provides enhanced content through tools including a Chemistry Structure Search.
- Ability to publish OnlineOpen and open your article for free in perpetuity
